Subject: Update: MEDIA INQUIRY - KUNPTV Portland

Laura Knudsen will be giving a taped interview at the KUNP studio this morning. Yesterday we did a practice session with Teresa Kubo lending her Spanish skills to ask questions and provide feedback on Laura's responses.

Topic: Would like to do a story about the proposed cleanup plan for the Willamette River and encourage their viewers to send in comments on the proposed plan. Would like to arrange for an on-camera interview with an EPA spokesperson who can speak Spanish. The reporter had some very basic questions about the cleanup and the comment period, so I sent her a link to the website and one direct to the Spanish language fact sheet.

Deadline: End of the day tomorrow or Friday.
